BUILDING ON
SHAREPOINT CAPABILITIES

AgreeYa is a global Microsoft Systems Integrator for last 17 years in delivering software, solutions, and services to clients in core areas of social, mobile, analytics, and cloud. Consequently, we are best positioned to offer you end-to-end SharePoint services and solutions, on both- On-Premise and on Cloud. With our extensive iLab (Innovation Lab) ecosystem, we modernize your functions, helping you improve performance, reliability, and scale while providing a foundation for future innovation. We tailor our solutions and deployments by your unique business needs, addressing it with a cloud-based infrastructure, modern user-experience, and ensuring people-centric compliance. Whatever your SharePoint goals be, AgreeYa's experts are with you in your purpose.

Get Most Out of Your SharePoint Investment

Are you fully utilizing your SharePoint investment? AgreeYa can help you simplify and optimize your SharePoint environment, to lower costs and improve performance.

SharePoint has been among us for more than a decade. Initially deployed as a one-point solution for collaboration challenges, today it is widely used as a business platform. However, while its growth has been exponential among the businesses, SharePoint is in a rather chaotic state with them, delivering mixed results. There is a lot of confusion around SharePoint for the users, and the ROI has diminished remarkably. With our SharePoint (on-premises and On cloud) implementation, we aim at improving performance, productivity, eliminate the unnecessary costs, and re-establish the blurring ROI.

Our SharePoint Services

Our end-to-end services across the versions (SharePoint 2010- SharePoint 2019)

Health Check & Optimization Services

Our health-check covers identification of potential issues in: SharePoint architecture, scalability, governance, the configuration of SharePoint components, security, backup process review, review of server maintenance schedules & tasks, and more. As an output of all our health checks, you get a documented set of findings that include suggestions for improvements. Our team of SharePoint experts performs these activities on a small SharePoint farm. For more complex and larger farms, we have other detailed and custom offerings to ensure due diligence in assessment.

Development & Implementation

Success depends on the right combination of technology, strategy, and implementation. We integrate these critical ingredients to develop a customized solution for your organization, building on out-of-the-box features to achieve increased ROI rapidly.

› Governance & Policies	› Pre-built, role-specific accelerators
› Hybrid solutions	› Enterprise Content Management (ECM)
› Communities and Enterprise Portals	› Social Collaboration and Intranet portals
› Content Management Systems (CMS) and public-facing websites	› Office 365 & SharePoint online based solutions
› Integration with enterprise applications including ERP and CRM platforms	› QuickApps for SharePoint
› SharePoint 2016 & Apps	› Workflow Models & Form Technologies

Business Intelligence

Our SharePoint business intelligence center and Power BI ensure that you get the insights you need. We also develop pre-built, role-specific accelerators that speed up the implementation of BI dashboards.

Migration & Upgrade

AgreeYa's SharePoint technology framework helps you avoid common pitfalls and transition challenges faced during SharePoint migration or upgrade (this includes disintegration of data and content). We bring right planning and strategies in place for you, to deliver a smooth transition from legacy systems (SharePoint 2019, Exchange Public Folders, File Shares or Lotus Notes) to SharePoint 2013, SharePoint 2016 or Office 365 – SharePoint Online.

Managed Services

AgreeYa's services are based on CMMI-certified service delivery model, backed by strong SLAs, and totally in-line with your internal procedures. Our pool of Microsoft certified experts help you run an efficient SharePoint environment on: on-premise, cloud and hybrid.

Training

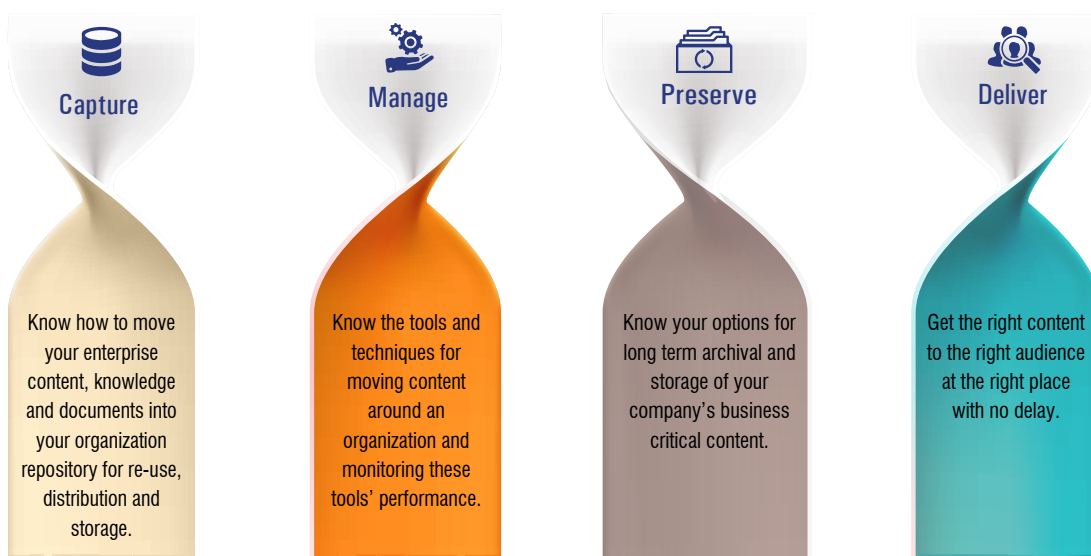

To expedite your ROI and improve adoption, we provide you a range of training services for business users and developers that range from beginners to expert level. Besides, our team creates personalized training packages to address any SharePoint related topic to meet an organization's specific needs.

AgreeYa's SharePoint ECM Service

Our Enterprise Content Management (ECM) process incorporates both— processes and tools that capture, create, manage, retain, share, search, view, route and expire company's critical electronic content and documents. Our solution improves an organization's content lifecycle on a single platform, starting from creation, and collaboration, to expiration, which includes documents, emails, messages, conversations, web content, records, and rich media. Our ECM Service has a proven ability to reduce costs, improve operational efficiencies and address fundamental compliance requirements— while simultaneously providing ROI.

AgreeYa's SharePoint practice strives to make the entire process of ECM adoption — planning and implementation — as simple and transparent as possible. We explore and review your needs and create a high-level plan to implement or enhance SharePoint ECM solution, ensuring that you realize its real value and best meet your ECM goals. Also, AgreeYa's exclusive SharePoint accelerators provide a foundation for an ECM that allows your organization to create and leverage enterprise collaboration and social networking for faster access to accurate and relevant information. As a result, you take better decisions and faster, boosting efficiency, and profitability drastically.

We know how to capture, manage, and preserve your enterprise knowledge assets to make these available for use.

What We Deliver

- › **Collaborative and Flexible Approach** – We closely work with you to develop solutions that meet the specific needs of your current environment, one that you can seamlessly leverage for future growth.
- › **Effective Document and Content Management** – Whether you are initially launching an ECM system or upgrading/consolidating your operations, our design and implementation allow you to quickly calm the chaos and create order to impact your ROI and bottom-line positively.
- › **Accelerated Delivery** – Our solution delivery accelerators yield productivity gains and produce consistent, accurate and predictable ECM performance even in the most challenging environment.
- › **Proven Expertise** – Our years of experience and product expertise allow us to bring best practices to the table, to bring you world-class, robust, and next-generation solutions on time.
